“The distance reiki session was a really great, (third)eye-opening experience. Haha I couldn’t resist the pun. But seriously, Nikki is very professional and clearly knows what she is doing. We agreed on a time that worked for us mutually and it was really easy. For me, I felt the sensation of having a weighted blanket on me during the session. About an hour or so later I received a report that was very helpful and informative about the state of my chakras and what she did to fix them, if they needed it. There were also tips to maintain their health. Overall this session was a really great deal and I wouldn’t hesitate to book with Nikki again in the future.”

“This was my first ever crystal reiki healing session. Going into the session I felt blocked. After the session I received a report of the reading in which a few of my chakras were indeed blocked. It’s been a few days since the reading and I am in awe of how great I feel. I feel much lighter. I’m sleeping better. When I meditate my inhales are deeper. My mind is more clear and open to where I’m able to remember good moments from my past which were blocked before and my energy levels have increased. I am grateful for Nicole’s gifts! She is truly a light and I am looking forward to another session with her in the near future.”
